## **Reality**

Reality as we know it is under attack.  
This has been happening for nearly a year.  
No-one knows by whom or why.

Reality is bound by the number **3**.  
Everything real is constrained by it. There  
are **3** levels of ability in any attribute, **3**  
levels of efficacy in tools and weapons, and  
**3** universal attributes. **3** is lucky.
